

iBridge LPO Legal Coding Services

iBridge LPO understands and supports your needs related to information collection and business record management. The organization performs data collection, electronic conversion, and hosting services for you - so your organization can focus on bringing increased efficiency and accuracy to your client.

iBridge LPO's extensive experience in litigation support, knowledge of the legal aspects of discovery, familiarity with advanced technological tools vital to managing terabytes of electronic information, and working relationships with other people and entities within the litigation support space provides a highly cost effective, highly reliable document and data management support solution. Most importantly, iBridge LPO brings a focus on carefully established processes that eliminate inefficiencies and provide quality assurance to the discovery process.

Services:

Scanning

Paper documents are scanned to produce digitized data images. The digitized images and index information are stored in the data volumes that are modular and readily portable into live document management systems without interruption or re-indexing of existing data.

Coding

Capture of "visible data" from images or paper documents and creation of coded data fields importable in to any database.

Indexing / Logical Document Determination (LDD) / Unitization

The organization of digitized data using single indexing or a combination of several different methodologies eases the retrieval of information by all levels of employees in the firm.

Benefits:

With iBridge LPO support, firms accelerate the processing and discovery of information, document review and bringing a singular view to complex cases and projects involving multiple parties. The client will realize a sizable cost savings for document preparation related to M&A, Bankruptcy, Class Action, Tort, or Product Liability, and other fundamentally “data heavy” litigation, investigations or other projects.

The solutions iBridge LPO provide are agnostic to hosting platforms or technologies - we concentrate on configuring solutions that involve the right people, processes, and technologies to enable you the strategic aspects vital to representation of your client.

The iBridge LPO “value proposition” is turn-around time, scale and cost as we seamlessly combine onshore and offshore resources, and facilities. iBridge LPO plays an essential role in providing quality solutions that are designed to be the most appropriate, time and cost effective leading to the achievement of an organization’s business record management goals and the best possible returns on investments.

iBridge LPO has been providing services to the legal industry for several years and has offices throughout the country.

About Us:

iBridge LPO is a services company based in the US, specializing in the outsourcing of legal services and the management of the outsourcing for US law firms and corporate legal departments.
